

Mole Valley District Council Freedom of Information Act Publication Scheme

Every public authority is required to adopt and maintain a Publication Scheme setting out the classes of information it holds, the manner in which it intends to publish the information, and whether a charge will be made for the information. The purpose of a Publication Scheme is to ensure that a significant amount of information is available without the need for a specific request. Publication Schemes are intended to encourage organisations to publish more information proactively and to develop a greater culture of openness.

Mole Valley District Council (MVDC) is committed to helping residents access information about the services we provide and the decisions we make. This scheme is one of the ways we demonstrate this commitment.

The Information Commissioner has prepared and approved a model Publication Scheme. This may be adopted without modification by any public authority without further approval, and is valid until further notice.

This publication scheme commits MVDC to make information available to the public as part of its normal business activities. The information covered is included in the classes of information mentioned below, where this information is held by the authority. Additional assistance is provided to the definition of these classes in sector specific guidance manuals issued by the Information Commissioner.

The scheme commits MVDC :

- To proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the authority and falls within the classifications below.
- To specify the information which is held by the authority and falls within the classifications below.
- To proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme.
- To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public.
- To review and update on a regular basis the information the authority makes available under this scheme.
- To produce a schedule of any fees charged for access to information which is made proactively available.
- To make this publication scheme available to the public.
- To publish any dataset held by the authority that has been requested, and any updated versions it holds, unless the authority is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the public authority is the only owner, to make the information available for re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act section 19. The term 'dataset' is defined in section 11(5) of the Freedom of

Information Act. The term 'relevant copyright work' is defined in section 19(8) of that Act.
