Ocean/Jungle Multi-Play

Ocean and Jungle are supported with a climbing net anchored up with a smaller tower. This connection extends the play variety and invites more players on.

The climbing journey starts at the straight climbing wall of the little tower with slide.

More climbing means coping with a 3 dimensional net, followed by a net section with a challenging pattern. After entering the single structure, the choice is: take the slide down or climb down the slanting climbing wall- forwards or backwards?
