Business unit	Housing

Description of the function or policy, including:

- **The aims and scope**
- **The main beneficiaries or users**
- **The main equality issues and barriers, and the protected characteristics¹ they relate to (not all assessments will encounter issues relating to every protected characteristic)**

The Affordable Housing Strategy 2020 to 2025, sets out the Council's plans to deliver new affordable homes and meet its corporate objectives. It also provides an important evidence base for the under preparation Future Mole Valley Local Plan 2018 to 2033 on the analysis of housing need and past delivery of affordable homes in the District.

It is a public document and available to all. The main users of the documents are housing associations, other registered housing providers, developers, planning consultants and the voluntary sector.

The beneficiaries of the outcomes from the Strategy are those on low incomes in housing need who cannot afford to buy a home on the open market.

There are no direct equality issues and barriers relating to the Strategy. However, affordable homes are let and sold subject to separate policies. The Council's published Housing Allocations Scheme sets out who is eligible and qualifies for affordable rented homes and how they are prioritised. The policy had its own Equalities Impact Assessment. The Government sets the eligibility rules for affordable homes for sale.

¹The protected characteristics are age, sex, disability, pregnancy and maternity, race and ethnicity, religion and belief, gender reassignment, sexual orientation, and marriage and civil partnership (Source: Equality Act 2010)

Description of how the function or policy fits into the Council's Corporate Priorities or other local, regional or national plans and priorities

- The Council has the specific corporate objective that the Strategy is seeking to address – 'Encourage the creation of affordable housing to meet local needs and explore innovative methods of delivery.' The strategy also contributes to other Council objectives on wellbeing, the economy, environment, climate change, town centres and rural areas.
